

## An insight into the ABC's of Innovation at the Nelson Mandela Metropolitan University (NMMU)

By Gareth Burley  
April 23, 2014

Together with the Regional Innovation Forum and the Nelson Mandela Bay Business Chamber, the SAEE EC branch hosted a networking event at the NMMU North campus conference centre looking at the **A**cademia & **B**usiness = **C**ommercial Success dubbed the ABC of Innovation on the 22<sup>nd</sup> April 2014.

Services on offer by selected disciplines within the NMMU and Council for Scientific and Industrial Research (CSIR) were presented to representatives of business and government, for the purpose of identifying areas in which academia may accelerate innovative aspirations.

Recognized researchers and practitioners in the fields of nanotechnology, chemical technology, engineering, renewable energy and bio-composites presented at the inter-active networking event showcasing what the NMMU and associates can offer the business community.

For more information on the event go to [www.innovationeasterncape.co.za](http://www.innovationeasterncape.co.za).
