

The Association of Energy Engineers (AEE), in cooperation with the Efficiency Valuation Organization (EVO) formerly known as the International Performance Measurement & Verification Protocol (IPMVP), has established the Certified Measurement and Verification Professional (CMVP) program with the dual purpose of recognizing the most qualified professionals in this growing area of the energy industry, and raising the overall professional standards within the measurement and verification field. The Efficiency Valuation Organization's (EVO) mission is to develop and promote the use of standardized protocols, methods and tools to quantify and manage the performance risks and benefits associated with end-use energy efficiency, renewable energy, and water efficiency business transactions. The EVO-owned International Performance Measurement and Verification Protocol (IPMVP) is the leading international standard in M&V protocols. IPMVP has been translated into 10 languages and is used in more than 40 countries.

Since 1981, AEE has certified over 7,000 professionals within the energy industry. AEE certification is recognized by governmental agencies, including the U.S. Department of Energy and the U.S. Agency for International Development, as well as by utilities, end-users, and energy service companies. When you earn the right to put the initials "CMVP" behind your name, you are distinguishing yourself among those involved professionally in areas requiring the application of accurate and reliable measurement and verification methodologies. Certified Measurement and Verification Professionals has demonstrated high levels of experience, competence, and specialized knowledge within the field of Measurement and Verification (M&V). The Certified Measurement and Verification Professional (CMVP) has been CPD (Continuous Professional Development accredited) and will earn you 2.0 credits.

The 3-day Certified Measurement and Verification Professional course will be presented by the SAEE and AEE in conjunction with the Energy Training Foundation (ETF) for three consecutive days during the week of 19-21 May 2010 (at Birchwood Executive Hotel and Conference Centre, Johannesburg). The four-hour examination will take place on the last day.

Eligibility:

Each candidate must pass the four-hour written exam AND meet one of the following criteria:

1. A **four-year degree** from an accredited university or college in science, engineering, architecture, business, law, finance, or related field, or be a **registered professional engineer (P.E.)**, or **registered architect (R.A.)**. In addition, the applicant must have at least **three** years experience in energy, building or facility management, or measurement and verification.
2. A **two-year technical degree** or **four-year non-technical degree** in a field not specified above with **five** years experience in energy, building or facility management, measurement verification.
3. **Ten** years or more **verified experience** in energy or building or facility management, or measurement and verification
4. The current status of **Certified Energy Manager (CEM)**.

The four-hour CMVP exam is given in conjunction with the Fundamentals of Measurement & Verification three day training program. The examination questions are based on concepts and experiences basic to measurement and verification. The exam is open book, and the questions are a mixture of multiple choice. After passing the exam you will have to submit the CMVP application. Persons attending the 3-day CMVP Course will also receive a certificate of attendance.

COSTS AND REGISTRATION:

The costs are the following:

3-Day CMVP course, Textbooks, Exam and CMVP Registration:

R 11 950 excl vat

It is important to note that full payments will have to be received at least one month in advance. If you are interested in attending the 3-day course we should have received your payment by 10 May 2010.

Please note: It will be the responsibility of the course participants to book their own accommodation, breakfast and dinner, lunch will however be provided. A list of accommodation possibilities will be forwarded to you with confirmation of attendance.

Where can you register or apply?

Attached are the documents that you can use to register for the training course:

Your registration should be faxed or e-mailed for the attention of Christina den Heijer/Yolandi Kruger
